

# Sasha Son, Miss Kiss

While I watch snow flakes fall I count the hours  
And reminisce 'bout our first kiss I miss you more and more  
'Member look in your eyes first time I gave you flowers  
Embracing ones heart it is the moment that worth living for  
My loving love  
Sudden-suddenly starts rushing through my veins  
My lasting light  
You guide me throughmy darkest nights

Chorus:

I'm missing you  
I miss kissing you  
I hope this moment never ends  
I vow to you you're my best friend  
The scent of your caress is forever blooming  
And colours of wild bares compliment your lips  
I watch the rain light up your face and I know  
You're the one I love  
See no one in this world could ever take your place  
My loving love  
Sudden-suddenly starts rushing through my veins  
My lasting light  
You guide me throughmy darkest nights

Chorus:

I'm missing you  
I miss kissing you  
I hope this moment never ends  
I vow to you you're my best friend
