

Sasha, Take My Hands

Come on little Darling be mine
Is it true that you worry
about the things I do for you
I will always be on your side
so just move a little closer
and everything will be alright
Take my hands
Won't you take my hands
Darling, take my hands - and fly away
Does anybody know how I feel
Finally we can make it
I lead you to a brighter day
Every time I look in your eyes
my heart is beating faster
I never ever tell you lies
Can I hold you in my arms tonight
And I'll be everyone you need
Words cannot express the way I feel
I want to give you all the love that I've got
If you take my hands
