

# Satanic Surfers, Head Under Water

I can't stand your stupid ugly face in combination  
with your John Wayne cowboy boots after every time  
that I have met you I have to clean my ears from all the shit  
that you have spoken and I'm happy I don't live on your block  
'cause I don't have to see you every day and know that you know  
why don't you stay the fuck away from me I wonder how long  
can you keep your head under water? I'd like to stay out of your life  
and you to stay out of mine too I don't want you near  
Take a train to the other side of the world stay there don't come back  
take a long walk on the short pier take on that rocket to the moon  
I'll count down, away you go oh, how I hate you get on that rocket  
to the darkside of the moon I wonder how long can you keep your head under water?
