

# Satanic Surfers, U+I R 1

It's been a long ride but here we are  
the years have passed and left its scars  
through thick and thin, through stormy weather  
we have grown strong, we've worked together  
Only time will tell if this will stand or fall  
We gather here, 'cause this is ours  
the things we share, our common ground  
when the world around us seems to scary  
when everything around us brings us down  
we cab get through this together 'cause you and I are one  
When I feel lonely  
when things are hard  
when I need comfort  
you're never far
