

Satanic Surfers, U+I R 1

It's been a long ride but here we are
the years have passed and left its scars
through thick and thin, through stormy weather
we have grown strong, we've worked together
Only time will tell if this will stand or fall
We gather here, 'cause this is ours
the things we share, our common ground
when the world around us seems to scary
when everything around us brings us down
we cab get through this together 'cause you and I are one
When I feel lonely
when things are hard
when I need comfort
you're never far
