Savatage, Complaint In The System (Veronica G

Welcome to the system
Here's the situation
It's a bit confusing
Welcome to the maze
Everybody sees what
Everybody wants to
Everyone avoids
Every other gaze

I will be your mentor
I'll be your advisor
I'll do what I do
And you will look away
Forgetting what you see
Has always been much wiser
But someone in the back is missing what I say

Got a complaint in the system Got a complaint in the system

Welcome to the park now We supply amusements Everybody rides But everybody pays

What good's causing problems When no one's complaining What good is a martyr If no one is saved

Everybody knows us Everybody sees us Every single child Can tell you where we are

Every politician
Says that we are leaving
But in all this time
We haven't gone too far

Got a complaint in the system Got a complaint in the system Got a complaint in the system Got a complaint in the system

You should understand it It's not underhanded It's really quite simple you see

The right and the wrong of it Long and the short of it Black and the white of it Forget the sight of it It is so much cheaper To be no one's keeper Trust me

In the dead of the night You can stab with a knife But it's rare you'll ever get anywhere

So we laugh in delight Till you turn on a light And we scatter for the darkness Or the corners filled with blackness
And we're
There
There
There
There
There
Where

Where There
