

# Savatage, Of Rage And War

You got Libia, you got the Russians  
You got civilian planes crashing to the oceans  
Airports full of terrorists  
Naziskins anarchists  
When are they gonna learn

□CHORUS:

□Better listen to me you son of a bitch  
□Better disarm those missiles sleeping in the ditch  
□You have no goddamn right to do the things you do  
□The world will be a better place if we were rid of you  
□Of rage and war (4 x)

Every country's got the bomb  
The scientists are working on  
chemical weapons to melt the flesh  
With no source of defense  
Shoot me, I'll shoot you  
Like there's nothing better to do  
Who's the loser in the end

□CHORUS

War broods in foreign lands  
Missiles launch upon command  
Islam Lebanon what the hell is going on

Ambassadors who say they try  
Negotiating suicide  
Are they prepared to face the end  
Of rage and war (4 x)
