

Saves The Day, Anywhere With You

I know i can't come near you
Every time i do
I get shaken inside and the sun in my eyes
I'll stay away

I'd rather be here
than anywhere with you
Whoo

I'd be dancing with your ghost
Toasting note to note
So here's to the passing
of all that could be
between you and me

I'd rather be here
than anywhere with you
Whoo

I know i can not see you
even if i wanted to
'cause your light is the light of ten sunsets
Circled by eyes burned blue and opened wide

I'd rather be here
than anywhere with you
Whoo

I'd rather be here
than anywhere with you
Whoo
