

Saves The Day, Delusional

They're at the house
They're breaking down the doors
They came to kill us all
There's no way out

All night I dream that they're really out to get me
The lines on my face are getting deeper every day

Drag me out
And hang me from the trees
Upside down and leave me
To die alone

All night I dream that they're really out to get me
The lines on my face are getting deeper every day

All night I dream that they're really out to get me
The lines on my face are getting deeper every day

But I'm not at all delusional
There's no way out
