

Saves The Day, Don't Go Outside

Temperatures rise, rising and reeling
from feral files found in the trash can
confirming all our deepest fears

Oooh television keeps us scared to death
Oooh dont go outside, better stay in bed

Mold in the air might cause a car crash
somewhere in France
leading to outbreaks of airborne plagues
violent earthquakes

Oooh television keeps us scared to death
Oooh dont go outside, better stay in bed

(Ah) Run to your mommas basement
there aint no air
so you cant hear the TV singing
soon well all be dead
get up! get up! go on and see the very last sunset

Oooh television keeps us scared to death
Oooh dont go outside, better stay in bed
