

Saves The Day, Radio

Hearing the words as they're leaving my mouth
I can't believe myself
I'm trying to be what you want me to be
I guess I can't catch up
Once in a while, making you smile, we're singing with the radio
You're singing with the radio

Stare into space like I'm not even there
I swear I'm not alone
but you make me think that I live with a ghost
But yet my love still grows
Once in a while, making you smile, we're singing with the radio
You're singing with the radio
We heard it on the radio

They're singing whoa oh, whoa oh oh
whoa oh, whoa oh oh

Once in a while, making you smile, we're singing with the radio
You're singing with the radio
We heard it on the radio
You're singing with the radio

They're singing whoa oh, whoa oh oh
whoa oh, whoa oh oh
