

# Saves The Day, Shattered

Crawling, all alone along the floor,  
Woke up this morning,  
with a trail of teeth under the door,  
I took a wrench to my chest, cracked all my ribs,  
let the blood run all over my hands

I can't stand my own face anymore,  
The mirror is on the floor,  
Shattered a million eyes all crying "please,  
Please don't forget about me."

You say I'm gonna break up,  
And drive my car into a wall,  
No they're never gonna wake up,  
And wonder why they didn't care  
After I pull out my tongue,  
Tie it 'round my neck,  
Hang myself alone in the dark

I can't stand my own face anymore,  
The mirror is on the floor,  
Shattered a million eyes all crying "please,  
Please don't forget about me."

Please don't forget about me  
(Wrench to my chest, crack all my ribs  
let the blood run all over my hands)  
Please don't forget about me  
(Pull out my tongue tie it 'round my neck  
Hang myself alone in the dark)  
Please don't forget about me

I can't stand my own face anymore,  
The mirror is on the floor,  
Shattered a million eyes all crying "please,  
Please don't forget about me."  
(Forget about me)  
Please don't forget about me.  
(Forget about me)  
Please don't forget about me.
