

# Savoy Brown, Can't Take It With You

You can make lots of money  
without tryin' at all  
You can own a big house  
shop every day of the month  
But it don't matter baby what you got to show  
You can't take it with you when you go

You can have fine clothes be in the latest trend  
You might have Kings and Queens as your friends  
But it don't matter baby who you know  
You can't take it with you when you go

You can have a Cadillac sittin' in your drive  
You can wear a Rolex Watch to tell the time  
But it don't matter baby how you spend you dough  
You can't take it with you when you go  
I said that you can't take it with you when you go  
You can't take it with you when you go
