

# Savoy Brown, Denim Demon

Dave Walker

I spent ten days doing nothing, making friends and drinking beer  
Love my hometown people but it's getting crazy here  
I get a fast train out of Birmingham, wave them all goodbye  
Catch a 747 and I'll give L.A. a try

Look out London, look out Kennedy  
I'll be coming to Los Angeles and the lady who takes care of me

Going to Arizona to a place I love so well  
Cactus must be twelve feet high, the sun is hot as hell  
Pack a pair of Levi's, as much wine as I can  
'Cause I'm called the Denim Demon I'm a devil of a man

Look out London, look out Kennedy  
I'll be coming to Los Angeles and the lady who takes care of me
