

# Savoy Brown, Give Me A Penny

Trad. Arr-Youlden/Simmonds-Chrysalis Music Ltd

My goodtime friends have put me down  
I'm all alone in your town  
You know I don't have no place to go  
The woman I love she don't want me no more  
I'm just trying to explain  
I need a penny to call my baby  
You don't seem to understand  
I need a penny to call my baby  
You know she asked me to call her on the phone  
She got the nerve to tell me she all alone  
I'm just trying to explain  
I need a penny to call my baby

I'm just trying to make you understand  
I need a penny to call my baby  
Now I don't have no peace of mind  
I'm just trying to seek what I can find  
I'm just trying to explain  
I need a penny to call my baby

Now I want to tell you when I wake up in the morning  
And I find now baby I'm all by myself  
I feel so dissatisfied  
When I go to work and I come home in the evening  
And there ain't nobody there  
I feel so dissatisfied  
Oh give me a penny baby, give me a penny baby  
My wife, now my wife she left me  
Give me a penny  
Give me a penny
