

# Savoy Brown, Let It Rock (Rock And Roll On The

Simmonds/Raymond-Chrysalis Music Ltd.

Rock and Roll on the radio

Hear it every place I go

Stick McGhee singing Spo-Dee-O

Let it rock to your very soul

Well the Jacquet on the saxophone

Plays it like you never heard before

Can't you feel him getting so high

Let it rock to your very soul

Well Let It Rock to your very soul

Rock to your very soul

Hear it on the radio

Rock to your very soul

Well let it rock

Everybody knows they got to move

When they hear that funky rhythm move

When there's nothing left for you to do

Let it rock to your very soul

Well Let It Rock to your very soul

Rock to your very soul

Hear it on the radio

Rock to your very soul

Well let it rock
