

Savoy Brown, Part Time Lady

Mmmhmhmm

When I'm a long ways from home

Ain't got my number one

Need my substitute

Just to have a little fun

When the night comes on

And the day is done

She'll be my back door lover

I'll be her midnight man

Part time lady full time love

Part time lady full time love

Full time love

When I'm a long ways from home

And the day is through

She'll be sneakin' 'round knockin on my door

When I'm out on my own and I need company

She'll be my easy lover

She'll be my ?mystery?

Part time lady full time love

Part time lady full time love

Full time love

(Music break)

Part time lady - full time love

Part time lady - full time love

Part time lady - full time love

Part time lady - full time love
