Savoy Brown, Take It Easy

submitted by SavoyKev
Oh well I know your built for action
But you just live your life too fast
If you don't slow down pretty soon
Your good days will have passed

So take it easy baby
There ain't no need to worry
The world won't end tonight
So tell me what's the hurry?

You should enjoy the long, long journey
Savor every hill and bend
You're gonna get there sooner or later
So don't worry about the end

Just take it easy baby
There ain't no need to worry
The world won't end tonight
So tell me what's the hurry?

You know the law of gravity
Says what goes up has to come down
And the faster you reach the limit
The sooner you come to ground

So take it easy baby
There ain't no need to worry
The world won't end tonight
So tell me what's the hurry?

You know, you shouldn't worry about the future
While you are still well in your prime
Just take it as you find it and you'll enjoy every time

Just take it easy baby
There ain't no need to worry
The world won't end tonight
So tell me what's the hurry?

Oooohh
Take it easy
Take your time

I know you're built for action
But you just live your life too fast
If you don't slow down pretty soon
Your good days will have passed

So take it easy baby
There ain't no need to worry
The world won't end tonight
So tell me what's the hurry?

You should enjoy the long, long journey
Savor every hill and bend
You're gonna get there sooner or later
So don't you worry about the end

Just take it easy baby
There ain't no need to worry
The world won't end tonight
So tell me what's the hurry?

Don't you worry about the future
While you are still well in your prime
Just take it as you find it
And you'll enjoy it every time

Just take it easy baby
There ain't no need to worry
The world won't end tonight
So tell me what's the hurry?

Oh yeah

Take it easy baby
Take it easy baby
Take it easy baby
Take it easy baby.
