

Savoy, Lackluster Me

Lackluster me
Stands before you
What can I be
To make you want me

All I have
I give to you
It's all I need
To get me through
And we sill get it while we can
We will walk out across the land
We'll let the birds feed off our hands
Out of our hands

Lackluster me
There I said it,
You could break me
Don't you get it

All I have
I give to you
All I wrote
To get me through
And we will get out while we can
We'll put our heads up from the sand
Two movie lovers with a band
Yeah, with a band

All I have
I give to you
All I want
You want it too
And we sill get it while we can
We will walk out across the land
We'll let the birds feed off our hands
Out of our hands
