

Saxon, Killing Ground

Follow the bible

Follow the drum

Follow the footsteps our comrades begun 'till the battle's won, battle's won

Follow the sever

Follow the gun

For king and for country we stand here as one 'till the battle's done, battle's done

We are brothers in arms we fight for the cause

together we stand defy and we fall

on the killing ground (killing ground)

Cannons are roaring to left and to right

Into the carnage we follow to foot 'till the day is won, day is won

Thousands have fallen we round as they die

One would stay together we fight or we die 'till the day is done, day is done

We are brothers in arms we march for the cause

together we stand defy and we fall

on the killing ground (killing ground)

-solo-

Chargeing to battle at victory we cry

On to the ledges where the severs lie hear our battlecry, battlecry

Feel there no silent conflict is done

Marching to glory thru rivers of blood to our battlecry, battlecry

2 X We are brothers in arms we die for the cause

together we stand defy and we fall

on the killing ground

-bridge-

2 X We are brothers in arms we fight for the cause

together we stand defy and we fall

We are brothers in arms we march all the time

together we stand defy and we fall
