

Saxon, Run For Your Lives

Danger, danger, there's something in the air
Faster, faster, be careful, you better beware
I had a dream last night, I saw you burn
Someone screaming out, screaming out the words

Run for your lives, they set the place on fire (*)
Run for your lives, the flames are getting higher

Burning, burning, fire in the night
Higher, higher, the flames are shining bright
I've got nowhere to run, I was blinded by the light
There's someone screaming out, screaming in the night

(Repeat *)
