

# Saxon, Running Hot

Catch me if you can and tame the beast  
Should I leave you burning in the heat  
Kick the throttle down, I'm on fire  
It turns me on to feel the engine's beat

Take it to the highway (\*)  
On the open road  
I want to feel your power  
Screaming into overload  
She's running hot, she's hot

Coming out of nowhere, moving fast  
I gotta keep the feeling  
Make it last  
Let me feel your body  
I'll explode  
Together we will run to overload

(Repeat \*)
