Saxon, Running Hot

Catch me if you can and tame the beast Should I leave you burning in the heat Kick the throttle down, I'm on fire It turns me on to feel the engine's beat

Take it to the highway (*)
On the open road
I want to feel your power
Screaming into overload
She's running hot, she's hot

Coming out of nowhere, moving fast I gotta keep the feeling Make it last Let me feel your body I'll explode Together we will run to overload

(Repeat *)
