

Say Hi To Your Mom, A Hit In Sweden

The so-so
The tremours
The costumes
The grammer
The lightbulbs
The letters
The zeros and
The Chatter

But its never been clearer, we'll just dance in the mirror
And the party will look twice as big.
And you can be jay, if you bring that record you said "was a hit in sweden"

The power
The gossip
The grovel
That lost it
And who's gonna go, the lotion bow
The best of two outta three.
The smack of the twigs
and the squeals of the pigs
And the sound in your head
When your thinking of me

But its never been clearer, we'll just dance in the mirror
And the party will look twice as big.
And you can be jay, if you bring that record you said "was a hit in sweden"

But its never been clearer, we'll just dance in the mirror
And the party will look twice as big.
And you can be jay, if you bring that record you said "was a hit in sweden"

But its never been clearer, we'll just dance in the mirror
And the party will look twice as big.
And you can be (D)'jay,
if you bring that record you said "was a hit in sweden"
