

Saybia, Just Dream

Child...

I dreamt I watch you die...
you die right in my arms...
felt you fell away...
Likely another day...son,
I swear I felt that day
a pain that walk remain...
a few I had no need...

So...

I went into your room...
I silently open the door...
I set down next to you...
I look down on your face...child,
I saw a paradise...
that **** in your ****
a few I had no need

CHORUS(x2):

('Cause) you're my life child,
everytime you breath,
I breath with you...
you're sunshine,
everytime you cry, my
I cries too

Child...

I dreamt I watch you die...
you die right in my arms...
felt you fell away...
Likely another day...son,
I saw a paradise
that **** in your ****
a few I had no need

CHORUS(repeat to fade):

('Cause) you're my life child,
everytime you breath,
I breath with you...
you're sunshine,
everytime you cry, my
I cries too
