

Scabs, I Need You

You could 've noticed

by the way that I was tryin' to catch you eyes

you could have known it

'cause I tried to start a conversation twice

I was really excited when you turned around and laughed at me

a silly smile and I didn't know what to say

I need you, baby, I need you

I wanna have a talk with you

baby it's so true

We didn't notice that we talked and laughed until the morning light

you didn't show it

you were waiting all the time to hold me tight

I'm really excited, I wanna come home and live with you

but I'm really tired and I got no place to go
