Scabs, Trippin My Mind

I took a trip in my mind I turned water into wine in the sunshine
I took a trip far away from the troubles of this maniac day
Oh I breathed in the air and I swear I didn't care about tomorrow
It was good it was better than good it's where I wanted to stay

And if you know what I'm saying I'm saying I just don't know a damn thing
And I think that one day that that's what I will truly believe
Till then I go alone like I do everyday in my own special way
Taking this life that I lead way to seriously
