

Scandal, Make Me Crazy

Make Me Crazy

Make me crazy
Make me crazy

Verse 1

Must have picked the stars out of the sky
And left them in your eyes
Boy I'm thinkin' bout you every day and every night
And I love the way you drive
Me insane
Make me laugh, make me love,
Make me crazy
I feel alive
Cos you're the only one
To drive me wild-wild
And I can't deny (I can't deny)
I love the way I'm all mixed up inside

Chorus 1

It's the way that you make me crazy
(It feels so right cos it's you now baby)
You got it all goin' on
(With all the little things that will make me crazy)
Just the way that you make me feel
(I feel so alive for the first time baby)
When you make me crazy, You got me baby.

Verse 2

Should've seen it coming from a million miles away, and now
I'm up-side-down and inside-out
With what you do to me (with what you do to me)
Never been so in love And so unsure
Lift me up, tear me down
Still I love you more
Can't deny,
I've come to love the way you mess me up inside

Chorus 2

It's the way that you make me crazy
(It feels so right cos it's you now baby)
You got it all goin' on
(With all the little things that will make me crazy)
Just the way that you make me feel
(I feel so alive for the first time baby)
When you make me crazy, You got me baby.

It's the way that you make me crazy
(It feels so right cos it's you now baby)
You got it all goin' on
(With all the little things that will make me crazy)
Just the way that you make me feel
(I feel so alive for the first time baby)
When you make me crazy, You got me baby.

Mid

Baby I can't work you out
(Baby I can't work you out)
Cos I never ever loved someone like you before
(guy like you before)
And now I can see things straight
Cos everytime I clear my head

(Everytime I..)
You spin me round again
