

# Scandal'us, Make Me Crazy

Make me crazy  
Make me crazy

Must've picked the stars out of the sky and left them in your eyes  
Boy, I'm thinkin' 'about you every day and every night  
And I love the way you drive me insane  
Make me laugh, make me love, make me crazy

I feel alive  
'Cause you're the only one to drive me wild, wild  
And I can't deny  
I love the way I'm all mixed up inside

It's the way that you make me crazy  
(It feels so right, 'cause it's you now, baby)  
You got it all goin' on  
(With all the little things that will make me crazy)  
Just the way that you make me feel  
(I feel so alive for the first time, baby)  
When you make me crazy  
You got me, baby

Should've seen it coming from a million miles away  
And now I'm upside-down and inside-out with what you do to me (with what you do to me)  
Never been so in love and so unsure  
You lift me up, tear me down  
Still, I love you more  
Can't deny  
I've come to love the way you mess me up inside

It's the way that you make me crazy  
(It feels so right, 'cause it's you now, baby)  
You got it all goin' on  
(With all the little things that will make me crazy)  
Just the way that you make me feel  
(I feel so alive for the first time, baby)  
When you make me crazy  
You got me, baby

Baby, I can't work you out  
(Baby, I can't work you out)  
'Cause I never ever loved someone like you before  
(Guy like you before)  
And now I can see things straight  
'Cause every time I clear my head  
(Every time I)  
You spin me 'round again

It's the way that you make me crazy  
(It feels so right, 'cause it's you now, baby)  
You got it all goin' on  
(With all the little things that will make me crazy)  
Just the way that you make me feel  
(I feel so alive for the first time, baby)  
When you make me crazy  
You got me, baby

It's the way that you make me crazy (crazy, yeah)  
(It feels so right, 'cause it's you now, baby)  
You got it all goin' on  
(With all the little things that will make me crazy)  
Just the way that you make me feel  
(I feel so alive for the first time, baby)  
When you make me crazy

You got me, baby
