

Scapegoat Wax, Crawlin'

Things are different on my block
I don't know if you heard about,
how these folks are living
and I can't help you out.
It seemed to be your fault again.
What you said got you running 'round
The demon entered your enemies,
you'll pay when you slow down.

ooh ooh
I feel for you.
So take your time.

You're crawlin',
things can only get better boy.
Your life can shine in front of you,
It catches up with all of us
I'm certain afternoons.

Times are changin' you know that.
God knows what you were you were thinking of.
Everybody's watchin',
they can't destroy you enough.
I try to figure out, (figure out)
the rules of this or that game.
The streets that got your number,
you don't remember your name.

ooo ooo
I feel for you.
So take your time.

You're crawlin',
things can only get better boy.
Your life can shine in front of you.
It catches up with all of us,
i'm certain afternoons
(x2)

...yea

I can't let this carry on.
The shadows won't cover your regrets.
They told you about this avenue,
I bet you won't forget.

Your strength is runnin' out, (runnin' out)
Your blood is screamin
You can't defend yourself again
You can't get in a word.

ooo ooo
I feel for you.
So take your time.

Your crawlin',
things can only get better boy.
Your life can shine in front of you.
It catches up with all of us,
i'm certain after you,
(x2)

You're crawlin' (x3)
