

# Scar Symmetry, Obscure Alliance

I am the conscious soul  
Supreme awareness  
The serpent rising, following the spine

Nothing has really changed  
No nothing's really new  
Everything is still the same  
But I see in different ways

Flesh and spirit  
Obscure alliance pass unseen  
Soul in zenith  
Unharméd it stares into the sun

With death as guiding star  
I am transcendence  
Within the rising I see the fall

Nothing has really changed  
No nothing's really new  
Everything is still the same  
But I see in different ways

Flesh and spirit  
Obscure alliance pass unseen  
Soul in zenith  
Unharméd it stares into the sun

(Solo)

The empire within swirls and changes  
Never stagnant, ever morphing  
Aligned with the unseen

Flesh and spirit  
Obscure alliance pass unseen  
Soul in zenith  
Unharméd it stares into the sun  
Worlds in hiding  
Obscure alliance of the planes  
Still abiding  
Unbound in every phase
