

# Scarlet, Naked

There are things that I have said  
And all the places we have been  
And there's times we've been together  
And times in between

Naked, you see right through me  
I am a glasshouse  
Naked's how you see me  
Naked, and i don't mind that  
I'd never hide that  
Naked's how you see me

Think I know your greatest fear  
But I think when I'm alone  
I feel I tell you all my theories  
But you'll never know

Naked, you see right through me  
I am a glasshouse  
Naked's how you see me  
Naked, and I don't mind that  
I'd never hide that  
Naked's how you see me

I think I know your fantasies  
What you think when you're alone  
I think you know me too well  
But I don't suppose I really know  
Remember. Cherish. Honour. Love. Respect.

Naked, you see right through me  
I am a glasshouse  
Naked's how you see me  
Naked, and I don't mind that  
I'd never hide that  
Naked's how you see me

Naked, I am a window  
I may be tainted  
You don't see me clearly  
Naked, I don't see you  
See right through you  
I want to see you naked
