## Scarlet Road, Trip If You Have To

You're under sheets A tepid wall A luke warm shield of sheets Your insides are frozen From past defeats Well, let go, and

Trip if you have to (Won't you fall?)
Trip if you have to (Fall for me)
We're almost there babe (Won't you fall?)
This road we're traveling (Fall for me)

And just forget about this telephone sinkhole And just forget about this sexual overtone Let's just cut right down to the bone And let go

Well, we know what you want Baby, Baby, Baby, I know what you need, Yes I do Let's turn our leaf And shelter underneath Yeah Shelter underneath you

And just forget about your adolescent romance And just forget about your fear of the fast dance Let's take it off, down and take a chance, and

Trip if you have to (Won't you fall?)
Trip if you have to (Fall for me)
We're almost there babe (Won't you fall?)
This road we're traveling (Fall for me)
It's our own

We'll get through - we must get by Slow dancin' through the night Then we'll spin until we fall
