

Scarlet, Virgin

Lovely man, how sweet are you?
Your loving me, it cuts right through
But in your past you held another like me
I'm angry that you had a life before me.
I promise you it's not a real concern

Take this from me, I'll keep it sweetly brief.
It's just the thought of you in the arms of another like me
I'm angry that you had a life before me
She's had you

I didn't want a virgin
I've been around, you've been around (been around round)
I want to be your only lover
I didn't want a virgin
I've been around, you've been around (been around round)
I want to be your only lover

Take this from me, I'll keep it sweetly brief.
It's just the thought of you in the arms of another like me
I'm angry that you had a life before me
She's had you

I didn't want a virgin
I've been around, you've been around (been around round)
I want to be your only lover
I didn't want a virgin
I've been around, you've been around (been around round)
I want to be your only lover

I can't get your past out of my head
I wish I could let it go
Let it go, let it go
I didn't want a virgin
I didn't want a virgin
I want to be, I want to be your lover
I didn't want a virgin
I didn't want a virgin
I want to be your only lover
