

# Scarling., (Northbound On) Cahuenga

She's precious and perfect  
While easily broken  
Dear sister, you missed her  
She's already spoken  
She whispers and blisters  
She talks and conspires  
She spits at the walls  
And fucks all the liars

Now I see you, driving in her car  
Now I see  
Now I see you, now I see  
Now I see you, driving in her car

He's handsome - hopeful  
So easily recognized  
Dear brother  
Discovered, she left no good byes  
He's acting, not knowing  
He drinks and perspires  
Shatters mirrors- reflecting his desires

Now I see you, driving in her car  
Now I see  
Now I see you - now I see, now I see you  
Driving in her car  
Driving in her car  
Driving in her car

Then you held my hand  
As she drove away  
As she drove away  
As she drove away  
As she drove away  
As she drove away  
As she drove away  
As she drove away
