

Scars On Broadway, Kill Each Other / Live Forever

I am the one that's calling inside of your brain,
I am the one that makes you feel all the shame,
Never mind my name!

We don't want to believe
That the world can still move on,
We don't want to believe
That the sun can still shine on.

If we're gonna kill each other,
How we gonna live forever?
If we're gonna live forever,
How we gonna kill each other?

I am the one that's calling inside of your brain,
I am the one that makes you feel all the shame,
Never mind my name!

We don't want to believe
That the world can still move on,
We don't want to believe
That the sun can still shine on.

If we're gonna kill each other,
How we gonna live forever?
If we're gonna live forever,
How we gonna kill each other?

We don't want to believe
That the world can still move on,
We don't want to believe
That the sun can still shine on.

We don't want to believe
That the world can still move on,
We don't want to believe
That the sun can still shine on.

I am the one that's calling inside of your brain.
