

Scars On Broadway, Kill Each Other Live Forever

I am the one that's calling inside of
Your brain.
I am the one that makes you feel all the
Shame.
Never mind my name
We don't want to believe that the world
Can still move on
We don't want to believe that the sun can
Still shine on
If we're gonna kill each other how we
Gonna live forever
If we're gonna live forever how we gonna
Kill each other
I am the one that's calling inside of
Your brain.
I am the one that makes you feel all the
Shame.
Never mind my name
We don't want to believe that the world
Can still move on
We don't want to believe that the sun can
Still shine on
If we're gonna kill each other how we
Gonna live forever
If we're gonna live forever how we gonna
Kill each other
If we're gonna kill each other how we
Gonna live forever
If we're gonna live forever how we gonna
Kill each other
We don't want to believe that the world
Can still move on
We don't want to believe that the sun can
Still shine on
We don't want to believe that the world
Can still move on
We don't want to believe that the sun can
Still shine on
I am the one that's calling inside of
Your brain.
