

# Scary Kids Scaring Kids, The World As We Know

Time is becoming  
More precious than gold  
All those times wasted alone  
Starving children the poison waters  
And the sulffacoting skies  
We won't get another chance this time  
We won't get a second chance this time

You'll be lucky if you make it out alive  
Haven't we lost our minds?  
What the hell were we all thinking?  
Now they're choosing sides  
This is the world  
This is the world

A virus known as rage  
Is brutal in destroying  
And spreading all over the place  
Bleeding culture  
The dying nation  
When the money controls the tide  
We won't get another chance this time  
We won't get a second chance this time

You'll be lucky if you make it out alive  
Haven't we lost our minds?  
What the hell were we all thinking?  
Now they're choosing sides  
Well this is the world as we know it  
Have we lost our minds?

Tension is rising and rising  
The world is at stake

So close your eyes  
And paint a picture  
Such a stirring back  
Won't last forever, forever  
Just close your eyes  
And paint the picture  
Cause the world we could have had  
would have been better  
much better  
Just close your eyes  
And paint the picture  
Cuz the sunset starring back  
Won't last forever, forever
