

Scaterd Few, Anybody - Everybody

Somebody's on their knees
Somebody needs a refill
Somebody's aiming to please
Can't seem to manage the free will

Anybody holding the keys
Anybody looking for cheap thrills
Anybody's easy to tease
When they can't stop climbing the uphill

Somebody's out of hope
Somebody needs a new drill
Somebody's trying to cope
And they're lacking all the right skills

Anybody needing some rope
Anybody can run to the high hills
Anybody can make it a joke
When they can't stop living like road kill

Everybody's all the time
And you're always on his mind

Anybody - Everybody
Anybody - Everybody

You're the one I came to find
