

Scene 23, Another Night

All night

Did you know I was lonely
Was I a fool to be foolin myself
Was it your thrill when
You made me believe all your lies

I believed you cared for me
I believed you had nothing to hide
There was somethin' about you
That woke up my passion inside

Another night when you said we would be on
Another night with your touch on my mind
Another night with your body to lean on
Too many nights wonderin' how to get it right

So you think I decieved you
Did you assume I was playing with your mind?
But would I waste my time
If I didn't care

Good things don't come too easy
I've been heart broken to many times
You tried to hard to impress me
You sure figured out what it takes to intice me

Another night when you said we would be on
Another night with your touch on my mind
Another night with your body to lean on
Too many nights wondering how to get it right

Another night when you said we would be on
Another night with your touch on my mind
Another night with your body to lean on
To many nights wondering how to get it right

Hey whats up?
You tell me wussup
What do you mean?
Stop playing games tell me whats up
Stop trippin I'm not hiding anything
I've been real the whole time
You sure dont look like it
So what do you want me to do?
Tell me how you feel

(TOO MANY NIGHTS)

Another night when you said we would be on
Another night with your touch on my mind
Another night with your body to lean on
ToO many nights wondering how to get it right

Another night when you said we would be on
Another night with your touch on my mind
Another night with your body to lean on
ToO many nights wondering how to get it right

Another night when you said we would be on
Another night with your touch on my mind
Another night with your body to lean on
ToO many nights wondering how to get it right

Another night
Another night
Another night
Too many nights (Too many nights)
Wonderin how

(Too many nights... without you...)

You gotta tell me how you feel
You gotta tell me how you feel
