

Scepter, The Victimless Crime

Drowning in the fecal oceans of genetic waste
Decimate the dignity of the human race
Ignorance violence selfishness and greed
That's the corpse from which the maggots reproduce and feed
We're at war
Filthy whore
Mindless beast
Rife with disease
The seeds of desolation sown by generations past
It's time for us to make this one the last
Suffocate mutilate rip it open wide
By this sacrifice all life is sanctified
We're at war
Rape the whore
Savage beast
Hell unleashed
Womb is scraped
Seal your fate
The blood will follow
From someone that you will never know
Life is not right it is choice that is preordained
If we let bastard live then everyone will pay
Terminate pregnancy the suffering the pain
Who's the victim what's the crime nothing left to say
We're at war
Spay the whore
Geld the beast
Abort the fetus
Expatriate
Eradicate
Exterminate
Annihilate
And deal death till there is none left
