

Schaeffer, Stay

Stay with me now, away from all harm
I dont mind a heart to mend, just hold me now dont ever let me go
Stay with me now, dont go far
I want you to be with me till the end
Give me your hand whenever you think youve lost your way
Ill bring you back and we can go start a brand new day
Dont walk out with just a stare
Turn around and show me that you care
Stay with me now, dont go far
I want you to be with me till the end
I dont mind a heart to mend, just hold me now dont ever let me go
Stay
