

# Schaeffer, Stay

Stay with me now, away from all harm  
I dont mind a heart to mend, just hold me now dont ever let me go  
Stay with me now, dont go far  
I want you to be with me till the end  
Give me your hand whenever you think youve lost your way  
Ill bring you back and we can go start a brand new day  
Dont walk out with just a stare  
Turn around and show me that you care  
Stay with me now, dont go far  
I want you to be with me till the end  
I dont mind a heart to mend, just hold me now dont ever let me go  
Stay
