

Schiller & Kim Sanders, Let Me Love You

I don't want you to give what you don't have
Don't make a vow that you can't keep
I don't want you to change your position
Don't hang around just to please me

But I have one request
And if you don't think it's senseless
Let me give you something else

Let me love you
Let me love you
Free of all rituals
Nothing habitual
Something you can sink your teeth into

Let me love you
Let me love you
Free of "where have you been"
Free of what state we're in
Something you can fall right back into
My love for you

We can go deep if you need to
I won't draw a line that runs against you
Don't hold back if you're afraid to
A sensual sin is what awaits you

But I have one request
And if you don't think it's senseless
Let me give you something else

Let me love you
Let me love you
Free of all rituals
Nothing habitual
Something you can sink your teeth into

Let me love you
Let me love you
Free of "where have you been"
Free of what state we're in
Something you can fall right back into
My love for you
