

# Schneider TM, Reality Check

reality check  
it's getting harder to find out  
who you work for  
and western fusion is about  
a tree is a forest  
like the one from the cure  
there's no way out  
we're out of the green and into the black  
there's no fuckin' doubt

beware of the matrix  
and keep a warm heart inside  
don't jump of the train  
it's still a long way to ride

second verse to the sky  
and everything's alright  
there's a bad moon rising  
the belly's fat, can't feel sad

back on the track of expectation-overload  
one step back is one ahead  
so we've been taught  
by every leader  
to make it easier and to grow  
got stuck in the ice-age  
education over board

beware of the matrix  
and keep a warm heart inside  
don't jump off the train  
there's still a long way to ride
