

Scissor Sisters, The Skins

You are subject to inspections,
Those are not your lips
Have you been kissed by a computer?
Are you able to move your hips?

It's the skins can you see them,
Holding us in?
The skins can you see them?
We cling to our skins.

Is it true, are you changing?
If so I won't come in.
Are you going to be so different?
There's a world without skin.

It's the skins can you see them,
Holding us in?
The skins can you see them?
We cling to our skins.

Randy Perkins where are you now?
The age of innocence is dead
Legions of legends have shown us how,
When you're ageing it's so hard to keep your head,
When you're ageing it's so hard to keep your head,
I'm not complaining it's so hard to keep my head,
When you're ageing it's so hard to keep your head.

It's the skins can you see them,
Holding us in?
The skins can you see them?
We cling to our skins.
