

Scissorfight, Victory Over Horseshit

Blast from the past

The governor of mass. can fucking kiss my ass

'Cause this is the sound

Going up an down

Your Massachusetts turnpike

What does it take to get riot out of me?

This is the sound that nobody digs

Back to attack

Those rip off sons of bitches mastered stabbing backs

'Cause this is the sound

As my head is kicking

Like a time bomb ticking

What does it take to get a riot out of me?

Who's up for offing some kicks?

Who's up for offing some kicks?

This is the sound that nobody digs

Bad acid trip

The eye of chaos put the masses to sleep

'Cause this is the sound 'cause what they're doing to language is so fucking offensive

Who's up for offing some kicks?

This is the sound that nobody digs

They seek their objective

There's just one question

What the fuck were they thinking?

What does it take to get a riot out of me?

This is the sound that nobody digs

Who's up for offing some kicks?
