

# Scooter, Constellations

When the sky falls down  
We start dancing

We've been trying so hard  
Just to feel like we are something  
We don't need to look up  
To feel the sun shine oh  
To feel the sun shine yeah

We don't watch the stars  
No, we are our own constellation  
Say the sky would fall  
We wouldn't even flinch

I'm on a rush  
Who will be my crush?  
You need the noise  
Make some noise

We don't watch the stars  
No, we are our own constellation  
Say the sky would fall  
We wouldn't even flinch

All right

Push it  
Here we go  
Yes

Feel the vibe  
It's me on the M I C  
So unreal  
You agree  
And I swear we are feared like the M I B

Chase the feeling  
We're back on the case  
Say, you mean it  
With the lyrical chase  
Strange, just be it  
We're back on the scene  
Say, you mean it  
This is like a dream

I would beg to differ  
Than keep up with the universe  
We're living for the shimmer  
To feel the sun shine yeah  
To feel the sun shine

We don't watch the stars  
No, we are our own constellation  
Say the sky would fall  
We wouldn't even flinch

Take me away  
Get it  
One more time

We don't watch the stars  
No, we are our own constellation  
Say the sky would fall  
We wouldn't even flinch

Yeah, yeah
