

Scooter, Don't Let It Be Me

You lift me up
Just to put me down
You try to bring me up up up
Confusion all around

I hear your words
and everything you say
but nothing is the same no more
untill you go away

Don't let it be me, don't let it be me!
Don't let it be me, don't let it be me!
Cause I'm never never never never gonna let you down
Cause I'm never never never never gonna let you down

I'll let you go
To where you wanna be
I hope one day you'll understand
what you really meant to me

But then I'm gone
I'm gone and far away
And nothing is the same no more
Since you went away

Don't let it be me, don't let it be me!
Don't let it be me, don't let it be me!
Cause I'm never never never never gonna let you down
Cause I'm never never never never gonna let you down

allright
allright
allright

You lift me up
Just to put me down
You try to bring me up up up
Confusion all around

I hear your words
and everything you say
but nothing is the same no more
untill you go away

Don't let it be me, don't let it be me!
Don't let it be me, don't let it be me!
Cause I'm never never never never gonna let you down
Cause I'm never never never never gonna let you down
