

# Scooter, Don't Let It Me Be Me

You lift me up  
Just to put me down  
You try to bring me up up up  
Confusion all around

I hear your words  
And everything you say  
But nothing is the same no more  
Until you go away

Don't let it be me, don't let it be me  
Don't let it be me, don't let it be me  
'Cause I'm never never never, gonna let you down  
'Cause I'm never never never, gonna let you down

I'll let you go  
To where you wanna be  
I hope one day you'll understand  
What you really meant to me

But then I'm gone  
Gone and far away  
And nothing is the same no more  
Since you went away

Don't let it be me, don't let it be me  
Don't let it be me, don't let it be me  
'Cause I'm never never never, gonna let you down  
'Cause I'm never never never, gonna let you down
